

Sub Corporal Rejoins Fleet at Charleston

CHARLESTON—The submarine Corporal was recommissioned in ceremonies at the Naval Base here July 20, marking her return to the fleet after a six-month conversion.

n- The Corporal is now a GUPPY
3- III submarine, making her much
more potent than her unmodified
1- diesel-electric sisters. Her hull has
e been lengthened 15 feet to provide
2- space for new electronic gear and
s additional crew berthing space.

e Her conning tower has also been
r lengthened to permit installation
of a new attack center and a new
1 plastic sail has been added.

Originally commissioned in 1945,
she is now assigned to Charleston's
Submarine Squadron 4.
